---

Eric,

No worries - I'll be happy to re-direct Nancy to Burt.

So far, my concerns stem from some comments she made in meetings about some data and distributions that Windward hadn't shared with us in advance of the Round 2 report. So, once again, they dump a large report on us that will take time to crawl through because we can't be sure that what we thought were settled points weren't changed. I haven't had a chance yet to look at the pile of stuff Nancy sent but I'll get on it.

Bruce

Bruce, sorry you still taking Nancy's calls. I would like to begin transferring the FWM lead from you to Burt. Burt will be contacting you in the near term. In the meantime, I understand you spoke with Nancy and had some concerns about deviations from what we previously agreed to regarding the food web model parameters. Can you provide us with a summary of these deviations as well as any other issues we should be aware of?

Thanks, Eric
